Juice Taster Facial

25mins

\$40

(redeemable towards products purchased over \$100)

This treatment includes a holistic approach to skin consultations by looking at 3 factors - skin assessment, lifestyle and diet. This treatment is a great way to sample products and experience how satisfying a new skin care diet can be.

SKIN THERAPY

A collection of Skin Juice signature skin treatments.

Skin Juice Peel

45mins

\$125

Step out of the action and give your skin what it's craving. Soothe and strengthen? Bounce and brilliance? Clarify and balance? During your juice break, experience the juicy exfoliating peel that will refresh and awaken your skin. It'll quench your thirst with a zesty hydration hit, nourish your skin with fruitful nutrients and satisfy your senses with a hearty helping of vitality. Delicious.

Deluxe Skin Juice Facial

70mins

\$160

For those who embrace a delectable experience, ignite your senses with this release from the ordinary. You are catering to your skin's needs with an enticing, juicy facial feast and massage designed to boost and balance. Incorporating seven courses to refresh, soothe, enliven and delight. But remember to enjoy the ambience. Revel in the aromatic storyline of your treatment, designed to ground you, unwind you and energise you.

HYDRODERMABRASION

Hydrodermabrasion is a combination of exfoliation and product infusion. A gentle vacuum lifts the skin for better contact with a diamond abrasion while vacuuming away dead skin debris. Targeting solutions are applied to treat individual skin concerns.

DERMAPLANING

Dermaplaning immediately rejuvenates the skin by removing the outermost layer of dead skin cells and vellous hair. It is also highly effective in minimising the appearance of fine lines, wrinkles and acne scars, while leaving skin smooth, supple and vibrant.

LED LIGHT THERAPY

LED light therapy is a non-invasive skin treatment that uses light-emitting diodes (LEDs) to target specific skin concerns. The therapy works by exposing the skin to different wavelengths of light, which penetrate the skin at varying depths and trigger different reactions within the skin. It can be used as a standalone or combined with other skincare treatments to achieve optimal results. Red light stimulates collagen production, improves skin texture, and reduces the appearance of fine lines and wrinkles. Blue light is an effective treatment for acne-prone skin. Near-infrared light improves skin elasticity and reduces inflammation.

SKIN NEEDLING

Skin Needling, also known as Collagen Induction Therapy (CIT), is a procedure that uses tiny needles to create hundreds of microchannels in the skin. This process triggers the release of growth factors & fibroblasts, stimulating the skin's natural ability to repair itself by producing more collagen & elastin, resulting in younger-looking skin. Perfect for treating everything from fine lines, skin texture, pigmentation and overall skin health and radiance.

A course of 5-10 treatments is recommended for best results. LED would accelerate results and help with quicker healing.

ELECTROPORATION

Electroporation, also known as Needle-Free Mesotherapy, is a technique in which an electrical field is applied to cells in order to increase the permeability of the membranes, allowing products to be introduced into the cell more efficiently. Its application to the skin has been shown to increase transdermal product delivery by several orders of magnitude. The main advantage of electroporation is that it is a totally painless treatment and does not cause any kind of trauma to the skin as it does not require needles.
